Subject: Microsoft Settlement

I believe that this settlement is fair and just, for a couple of reasons.

1. I do not believe this trial should have gone as far as it has. Every business and person has the choice of Operating system. I could get a Macintosh, I could load Unix or I could use a free version of Linux. The reason Microsoft has such a hold on the Computer OS and Software industry is because they come out with not necessarily the best OS, but the best OS as a package, including support, the amount of Software available, and people knowledgeable in the product.
2. This settlement will bring new technology to schools that currently have 3 year old computers and Software

Sincerely,

Terry L. Read
